PARTNER

SprintSuite Reseller Program

Earn recurring revenue by helping contractors run better businesses

AT A GLANCE

The SprintSuite Reseller Program is designed for partners who already support contractors and trade businesses.

As a reseller, you introduce SprintSuite to your clients, manage the sale, and then hand over onboarding — while SprintSuite delivers the software, support, and ongoing product updates.

Ideal for:

- Consultants & agencies
- IT and software resellers
- Business coaches & advisors
- Service providers working with contractors

WHAT PARTNERS UNLOCK

SprintSuite is an all-in-one workforce and operations platform purpose-built for contractors operating in complex, high-compliance environments.

By partnering with SprintSuite, you're able to offer your clients a proven solution that supports compliance, workforce management, projects, and reporting — without needing to build or support the technology yourself. You focus on trusted advice and relationships.

We handle the platform, product, and technical support.
